Panama, 21.—Since the departure of a last mail for New York there have en no arrivals here, either from South Panama, 21.—Since the departure of the last mail for New York there have been no arrivals here, either from South or Central America. Dates from Begola are to July 28th: On the twentieth anniversary of Celombian independence, Deechman, United States maister, in addressing the president, said that the conduct of the United States had been erronsously interpreted by the people of Celombia; that the desire of the United States was to forward the interests of all Spanish-American republics. President Nunes replied, thanking the minister for the good intentions of his government towards Colombia. The saip Belle of Aron has arrived at Suena Ventura from Cardid with 1,400 tons of material for the railroad and wharf. The work of construction on both the railroad and wharf is in active progress, and the first section of the road, that between Buena Ventura and Cordava, will soon be opened to the public. This will do away forever with cance navigation on the D-gua. moe navigation on the Degua.

Oll Fires. Branford, Pa., 28.—During a violent thunderstorm this evening a 25,000 barrel fron tank at the state line, con-nected with the united lines that was nected with the united them was struck by lightong, is now burning. Cannon have been sent for in the hope of drawing off the oil before an overflow takes place. Another tank of the same size, it is said, must also go. There are eighty-nine tanks of the same size in the walley. Men have been sent to the scene to atrive to protect the surrounding pro-

Bradford, Pa., 29.—The iron tank struck by lightning at state line on Saturday evening burned out to-dight without causing any further destruction of property. Dangerous everflows were obvisted by firing solid shot into the bottom of the burning tank and drawing off the oil. Twenty-six thousand barrels were consumed. Other property in different parts of the all field was destroyed during the storm. Lots, \$40,000

Brisk Trade.

New York, 28.—The World says the general trade of the city was very active during the past week; in fact, the volume of business in a mercantile way was not only the largest of the season, but much larger than for the same week in previous seasons. In the line of dry goods, the distribution to the south and west and to the interior was very heavy, the wholesale distribution to the youth and west and to the interior was very heavy, the wholesale distribution to the youth as well as steamship wherees and railroad depots, presenting a scane of murual animation. The smaller class of seuthern buyers were in the market in great force, and the jobbers doing business with the south transacted a large trade.

Foreign Coin.

Washington, 30. — The tressury department estimates that about \$4,000,000 in foreign gold will arrive at New York each week until the lat of November. The tressury department has directed that \$30,000,000 in gold coin in the New York sub-tressury be placed to the credit of the superintendent of the assay office.

OURAY'S OUTGOING.

The Untimely Beath of the Dto Chief.

Washingt m. 28.—The death of Chief Oursy will not, in the opinion of efficers of the interior of partment, terricusty impede the business of the Ute commission, much loss break off entirely the negotiations now pending. Acting Secretary Bell, while conceiling to Chief Oursy unsiderable influence among Southern Utes, thinks there still remains among them other chiefs and head men favorably inclined to the treaty who will induce members of their tribe to agree to it, and consequently feels quite confident that the negotiations will be conducted to to a successful ending.

Chiengo, 28.—Inter-Ocean's Washington: The announcement of the death of the Ute Chief Oursy, removes the hope of the treaty being signed. Officials of the interior department fear that settlers who have been waiting for the signing of the treaty to enter the reservation will conclude to go in anyway, now Oursy is dead, not believing that the treaty will be signed at all. This, it is believed, the Indians will resist and another war is not improbable. It is considered fortunate that General Sheridan is there and can give his personal sitention to the matter.

Los Pracy, 30.—Raparonari is most favorably regarded by the grand council 1.7 Oursy's successor. He is inferior to Oursy. The treaty is in storu quo, and some acotthern Utes are bitterly opposing it. It expires on October 15th.

REPUBLICAN FRACOS

Preparing to Steat California New York, 29 .- A leading democra New York, N.—A leading democration of California and a candidate for elector at large, writes to the congressional committee at Washington, that resublican leaders are attempting to commit frauds in the registration and voting at the next election, and this is copouly done that it has excited some indignation among honest people, irrespective of party. The registrar, long in office, and who has the enfidence of everybody and of all parties, and has placed in his stead as registrar a man who came from Louisians, who was trained there, as it is said, under Governor Warmouth, and conducted the registration in East Folionia, in githat state, until it became necessary for him to fee the consirv. We hope to prevent the frauds intended

The San's Washington, commenting on the above, says: Although the writer of this letter dees not name the new registar, it is believed that it can be no other than the immortal Jim Anderson.

Nellson's Bequests. New York, 22.—Miss Niskon's will dispose of £30,000. Her mother receives £3,000 Mr. Dright, critic of the Athenaum, £1,000 Compton, who acted with her in America and watched her during her illness, £1,000 The residue she leaves to Admiral Carr Giyam, but it is thought he will decline the locacy, as Lee, the divorced husband of Miss Neitson, may make trouble. It is supposed, however, that the legal protection accorded to Neilson by an English court may defeat him.

'Rah for a Judge.

New York, 30.—Justice Wandell, of Essex Market Police Court, this morning fixed a young man \$5, for throwing a stone at a Chinaman who ejected him from a laundry. The prisoner's counsel offered in defense the prisoner's respectability and alleged that the Chinese were well known fairlifers. "Now stop right where you are" replied the justice, "this is not San Franci co. A Chicaman in New York will be protected by me every time."
